

The World's Largest Collection of **Technical Regulations and Standards** in Use in Kazakhstan

Our collection of technical regulations and standards of the Republic of Kazakhstan has been packaged into the **Database of Kazakhstan Industry Standards**. It contains bibliographic information and full texts* of technical regulations, codes, standards (SNIP, GOST, VNTP, VSN, MSN, PPB, PUE, RD, RST, SN, ST RK, SANPIN, etc.), handbooks, instructions, guidelines, manuals, and related statutory regulations. The Database includes documents issued by private-sector standards developers and government organizations and oversight agencies, covering fire safety, public health, industrial safety, product certification, quality control, construction, communications, transportation, energy, oil & gas, the petrochemical industry, and other industries and fields. The Database contains over **250,000 bibliographic records** for more than **40,000 titles** and **20,000 full texts*** of documents in electronic format.

To access the Database of Kazakhstan Industry Standards, you need to subscribe to the Regulatory Information Services. Intended for local and foreign companies conducting engineering, design, research, manufacturing, and import/export operations in Kazakhstan, the subscription package includes the following:

- 1. Access to regulatory information** using the electronic database. Subscribers access the information resources using a regularly updated Database of Industry Standards of the Republic of Kazakhstan (provided on CD/DVD).
- 2. Monitoring and updating** of regulatory information for Kazakhstan. We constantly monitor the regulatory information pertaining to Kazakhstan and regularly update the information provided to subscribers.
- 3. Human search.** For all the developments in automated information retrieval, nothing yet matches the ability of experienced, skillful human searchers. The specialists of our Research Center find and acquire documents requested by subscribers and are available to answer questions.
- 4. Document delivery.** We will send you the documents you requested, as hard copies delivered by courier and/or in electronic format via the Internet.

Topics covered by the Database of Kazakhstan Industry Standards:

Agriculture
Airfields and airports
Architectural design
Building construction
Building materials and products
Certification of products
Chemical and petrochemical
Civil engineering
Cogeneration
Conformity assessment
Construction tools and machinery
Drafting standards
Electric power
Electrical engineering
Energy and thermal engineering
Environment, health, and safety
Facility management
Fire safety and protection
Fluid systems and components
Food processing
Forestry
Glass and ceramics
Government oversight
Health care
Hoisting and conveying
HVAC
Hydraulic construction
Industrial construction
Industrial safety
Lighting
Manufacturing engineering
Materials handling
Measuring instruments
Mechanical systems
Metallurgy
Metrology
Mining and minerals
Nuclear energy
Occupational safety
Packaging
Paint and coating
Petroleum and natural gas
Plumbing systems
Pricing and cost estimating
Professional licensing
Pulp and paper
Quality assessment and control
Quality assurance
Seismic design
Sewage disposal and treatment
Site surveying
Structural engineering
Telecommunications
Testing
Transportation
Urban planning and development
Water supply and distribution
Waste management
Wood technology
